Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference character(s) mentioned in the description:

Reference character 202 in line 24, page 4, of the specification is missing in Fig.

2.

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description:

Reference characters 204, 400, 402, 404, 406, 408, 410, 412 in Fig. 4 are not mentioned in the specification.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "504" has been used to designate both "channel thread" and "channel thread architecture." Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. The term "Diagrams" should be removed from Fig. 3.

Art Unit: 2664

5. The term "Fig. 8" is repeating twice in Fig. 8, in the bottom of the drawing and in the top left hand corner of the drawing. The bottom "Fig. 8" should be deleted.

6. The term "Fig. 9" in the bottom of the drawing is labeled as "Fig. 7" in the top left hand corner of the drawing. The bottom "Fig. 9" should be deleted and "Fig. 7" in the top left corner should be replaced with "Fig. 9" instead.

The drawings filed on April 18, 2002 are acceptable subject to correction of the informalities indicated above. In addition, formal drawings rather than mark-up drawings must also be submitted. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

7. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a gateway access server that provides telephony services and information retrieval service over a voice over IP (VOIP) network without using any Telephony Interface Cards and is scalable to handle many users simultaneously, including the unique method steps of "providing an I/O thread for each channel for managing all I/O, with I/O thread performing the following acts: while playing a message, giving higher priority to data transmission than to data reception; and while recording a message, giving higher priority to data reception than to data transmission." The closest prior art, Ladd (USP 6,269,095), provides a managed VoIP

Art Unit: 2664

network in which a VoIP unit is used to receive and convert speech inputs into a VoIP protocol format to be transmitted to a IP packet-based network such as the Internet.

However, Ladd fails to anticipate or render obvious the above quoted limitations. This renders it allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
